# ANTIQUITIES PROTECTION LAW

#### CHAPTER ONE

#### **GENERAL REGULATIONS**

#### ARTICLE I

Any real-estate or chattel that was the product of the different civilizations or was the creation of arts, sciences, literature, and religion since the pre-historic age and during the successive historic ages till before 100 years is considered an antiquity, provided that it is of value or of an archaeological or historical importance as an aspect of the different aspects of civilization which took place on the Egyptian lands, or was of a historical relation thereto, and also the mummies of human races and beinjs contemporary to them.

#### ARTICLE 2

Any real-estate or chattel of a historical, scientific, religious, artisitic, or literal value may be considered an antiquity by a decree from the Prime Minister upon recommendation of the competent Minister in cultural Affairs, whenever the State finds a national interest in keeping and preserving such real-estate or chattel, this without being bound with the time limit specified in the hereinbefore article. Said estate or chattel shall hereby be registered in accordance with the provisions of said law and in this case the owner of the antiquity shall be deemed liable to the preservation of such and causing no change therein, this from the date of notifying him with said decree by a registered letter attached with a receipt.

#### ARTICLE 3

Lands owned by the State which were considered archaeological in pursuance to decrees or decisions prior to effecting said law or lands which are considered as such by a decree to be issued by the Prime Minister upon recommendation of the competent Minister in cultural affairs are deemed archaeological lands. By a decree from the Prime Minister in coordination with the competent Minister in cultural affairs, any land may be excluded from being one amoung the archaeological lands or public service facilities, lands set for

The abovementioned provision is applicable even if the search and exploration were in a land owned by the party applicant for licence.	All antiquities are considered public property except the wakfs. The possession or ownership or transfer of such is not permitted except in the terms and conditions stipulated in said law and the decrees implementing it.	ARTICLE 7 Trade in antiquities shall be prohibited from date of	effecting said law and present tradesmen are hereby granted a one year period of grace to arrange their circumstances and to dispose of antiquities they have. In respect to what remains at their disposal of antiquities after said period, they shall be deemed possessors and provisions concerning the possession of antiquities stipulated in said law thereby applicable on them.	ARTICLE 8 Possession of any antiquity shall be prohibited from date of effecting said law except in cases of existing ownership or possession at the time of implementation of said law or such	Tradesmen and non tradesmen who are possessors of antiquities must notify the Authority with the antiquities they have within a six months period from date of implementing said law, and must preserve such antiquities untill thier regis- teration by the Authority in accordance with provisions of said law.

Such provisions shall remain applicable even if what in the real estate of antiquity was transfered.

**ARTICLE 17** 

Without prejudice to penalities stipulated in present law or other laws, the head of the Authority's directorate may, by a decree from the standing committee for antiquities and without the need to resort to court, decide removing any infringement on an archaeological site or real estate through the administrative way, and the competent police of antiquities undertakes executing the decree of a removal. The transgressor is obliged to return the case to its previous state otherwise the Authority may undertake execution of such on his expense.

# **ARTICLE 18**

Lands owned by individuals may be expropriated for their archaeological importance. Moreover, by a decree from the President of the Republic the same may be temporarily appropriated untill procedures of expropriation are completed and the land shall thereby be considered all but antiquity as of date of temporarily appropriating the same. The possibility of the presence of antiquity in the expropriated land is not observed in the compensation.

## **ARTICLE 19**

Upon the request of the Authority's directorate, the competent minister in cultural affaires may issue a decree to determine the beautifying lines of public antiquities and archaeological areas. Lands lying within said lines shall be considered archaeological lands and provisions of present law shall be applicable thereupon.

# **ARTICLE 20**

Granting building licences at archaeological sites or lands shall not be permitted.

Other parties shall be prohibited from establishing foundations or cemetries or digging canals or constructing roads or cultivating in the same or in the public-service facilities set for antiquities or lands lying within the authorized beautifying lines.

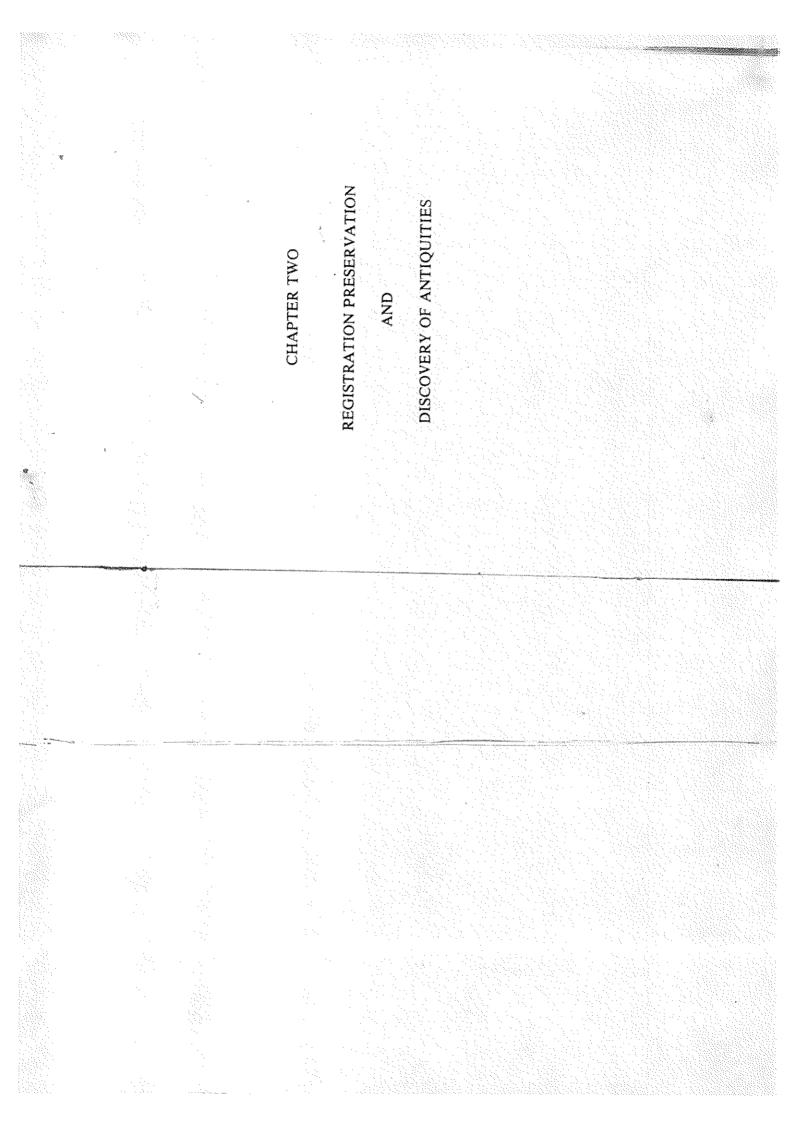

Implanting trees or the cutting of such or carrying rubble or taking soil or fertilizers or sand or the execution of any such work which result in changing the characteristics of said sites and lands shall be prohibited except with a licence from the Authority and under its supervision. Provision of the previous paragraph shall be applicable on adjacent lands lying outside the scope of the sites referred to in the previous paragraph which extend to 3 Kms distance in uninhabited places or to the distance the Authority determines in a way that realizes protecting the environment of the antiquity at other sites.

By a decree from the competent minister in cultural affairs provisions of present article may be applicable on lands of which the authority becomes evident on the basis of studies it undertakes, of the presence of antiquities at the depths of stated lands. Provision of this article shall thereto be applicable on the desert areas and places where operation of stone quarries is licensed.

# **ARTICLE 21**

Archaeological sites and lands, and buildings and places of historical importance must be observed when the lying out of cities, districts, and villages where the same are found is being changed. Implementation of modernized planning or expansion or amendment in archaeological and historical areas and what belongs to it shall not be permitted except after the approval of the Antiquities Authority in writing with deference to easements of title arranged by the Authority.

The authority may grant whoever guided to the anti- quity a recompense which is determined by the competent standing committee, if Said committee saw that this antiquity is of special value.	ARTICLE 24	Whoever accidently finds a movable antiquity or part or parts of an immovable place he is in must to notify such to the nearest administrative power within 48 hours as of time of finishing the same. Moreover, he must take good care of such	antiquity till handing it over to the competent power otherwise he is considered an owner of antiquity without a licence, and the power referred to must immediately notify the Authority of such.	The antiquity becomes the ownership of the State and the Authority is thereby entitled to grant whoever found the antiquity and notified of such a recompense which is deter- mined by the competent standing committee if said Authority deemed the antiquity valuable.	ARTICLE 25	A complete formed by a decree from the competent minister in cultural affairs wherein the directorate is repre- sented undertakes estimating the compensation stipulated in articles 9, 15, 16 and 18	Those concerned may raise a complaint to the compe- tent minister from the committee's estimation within a period of 60 days as of date of notifying them by a registered letter with a receipt otherwise the estimation is considered final.	In all cases the action for compensation falls if such is not raised within a one year's period as of date of its becoming a final estimation.

The Authority must declare its opinon wihtin a period of 3 months as of date of submission. In case the Authority does not declare its opinon within said period, the matter may be submitted to the competent minster in cultural affairs to issue a decree thereto.		The competent organ is emitted to licence building at places adjacent to areaeological sites within inhabited places after taking the Authority's approval.	The competat organ must include in the licence provi- sions which the authority sees guaranteeing the establishment of the building in a proper way that does not predominate over the antiquity or spoil its appearance and ensure for such a sui-	table sanctural together with observement of the areacological and historical environment and specifications guaranteeing protection of stated antiquity. The Authority must declare its opinion in the application for licence within a period of 60 days as of date of submission of such mherwise the lapse of the period teferredto is considered a refusal.	ARTICLE 23	Any individual who finds an unregistered immovable antiquity is under a duty to notify the antiquities Authority of such. The antiquity is considered the ownership of the State and the Authority must undertake the necessary procedures to	lake care of such antiquity. Within a period of 3 months, the Authority is entitled either to take stated immovable antiquity present in the property of individuals or undertake procedures of expropriation of the land wherein the same was found or to leave said antiquity at its place together with registering it in	accordance with provisions of present law. In estimating the value of the expropriated land, the value of antiquities found at said land is not observed.

#### ARTICLE 26

The Antiquities Authority undertakes enumerating, photographing, drawing, and registering immovable and movable antiquities together with gathering information pertaining to said antiquities in registers prepared for such uses. Registration is effected in accordance with terms and provisions of which a decree by the authority's directorate is issued. The registered antiquities are those registered at the date of effecting present law at the registers set for it.

The authority aims at generalizing archaeological survey, archaeological sites and lands at defining places and characteristics of the said and recording them on maps together with sending photocopies of such to both the competent local unit and the general authority for urban planning for the observance of such at the preparation of the general planning.

The authority shall prepare a register for environmental and urban data and factors affecting every archaeological site according its importance.

#### ARTICLE 27

The Antiquities Authority undertakes preparing the registered archaeological places and sites and historical buildings for visit or study in a way that is not incompatible with their security and preservance.

The authority also aims at revealing the aesthetic and historic characteristics and distinguishing features of the same.

The authority thereto emploies the capabilities of archaeological sites and museums in developing archaeological awarness by all means.
